

## Seasonal Archaeological Technician Positions: GS 5/7-Superior National Forest, Duluth MN.

***Superior National Forest Archaeological Technician GS-0102-5***  
***Superior National Forest Archaeological Technician (Crew Leader) GS-0102-7***  
**Duluth, Minnesota**  
**May/June-October 2022**

The USDA-Forest Service is seeking highly motivated candidates to join our archaeological field crew for the 2022 field season. The positions include GS 5 Archaeological Technicians and a GS7 Archaeological Technician (Crew Leader) based out of the Supervisor's Office in beautiful Duluth, Minnesota. Candidates will have the opportunity to work a flexible schedule and conduct project work throughout the 2.6-million-acre Superior National Forest, including the Boundary Waters Canoe Area Wilderness. Fieldwork will require overnight travel from Duluth for up to 50% of the field season. The successful candidate will gain experience in the following areas:

- Assist/lead pre-field review and designing/implementing Phase I survey in support of diverse undertakings.
- Assist/lead with identification, recordation, and evaluation of a diverse set of historic property types.
- Assist with historic structure maintenance, inventory, field assessments, and National Register evaluations.
- Backcountry travel techniques, watercraft safety, canoeing.

**Online applications are open on USAJOBS from 11/5-11/12, 2021 (Note: Search "Duluth", MN Duty Station and "Archaeological Technician")**
