An Early Nineteenth Century Farmstead in Western Illinois: The Seibert Site

Matthew E. Cross
Mark C. Branstner

Published by the Illinois State Archaeological Survey. 2014. 204 pp., $32.50 (paper).
Located adjacent to Scott Air Force Base in northeastern St. Clair County, Illinois, the Seibert site (11S801) represents one of the earliest farmsteads in Shiloh Valley Township, continually occupied for nearly 200 years. David and Polly Everett first settled the site in 1811 and retained it until 1833, at which time it was sold to Joseph Ledergerber. Ledergerber, in turn, occupied the site until 1861, before selling the property to Hiram Pierce. The property again changed hands in the early twentieth century, when purchased by George Seibert.

The 2010 excavation of the 1.3 acre Seibert site lead to the discovery of 47 subsurface features and the recovery of more than 20,000 individual artifacts, largely relating to the antebellum Everett and Ledergerber occupations. These features remained largely undisturbed by the subsequent occupations, demonstrating both changing site use and disposal patterns in post-bellum southwest Illinois.

The earliest (Everett) occupation occurred when the area was very much still the American frontier and subject to only moderate growth. The succeeding Ledergerber occupation occurred during a period of exponential regional growth, and thus Ledergerber lived in a much more established Euro-American community. The Everett farm had been a struggling, small-scale subsistence operation; Ledergerber transformed it to a very successful, commercial farm. This transformation can be seen in the material culture, not especially in type, but most certainly in quantity.

Sociocultural differences between the occupants were also observed, especially as noted in alcohol consumption patterns. The Everetts were likely devout Methodists (Polly’s father having been a Methodist preacher), with no alcoholic beverage containers identified with their household. On the other hand, Ledergerber, a Swiss-German emigrant, was responsible for a minimum of 43 alcoholic bottles, dominated by wine, and 36 drinking glasses, including three stemware wine glasses. The wine bottles include only three hock bottles characteristic of the Rhine River region where Ledergerber was raised; the vast majority of the bottles were, surprisingly, the French Bordeaux style. It appears Ledergerber’s service in the Swiss Guard under Charles X of France had clear affects on his taste and choice in alcoholic beverages.

Additionally, comparative data of early regional occupations came from Polly Everett’s father’s homestead (the Branscum site [11S1060]), located in the parcel to the immediate south. The Branscum site was excavated in 1996 and described in 2002 by Robert Mazrim. This facilitated a minor comparison between matching vessel patterns identified at both sites, potentially showing material exchange between the two, or at minimum, further reinforce the limited consumer choices available on the frontier.

5.1. Refined ceramics — Staffordshire blue transfer prints: (a) V68, (b) V67,
(c) V56, (d) V65, and (e) V59 ................................................................. 81

5.2. Refined ceramics — transfer prints: (a) blue Willow pattern (V66)
and (b) red Aleppo pattern (V76) ...................................................... 82

5.3. Refined ceramics — hollow ear vessel (V83) combining flow transfer print,
sponge/spatter, and painted design elements ........................................ 83

5.4. Refined ceramics — small-stroke painted: (a) V87, (b) V62, (c) V86, (d) V63,
and (e) V115 ......................................................................................... 83

5.5. Refined ceramics — China-glaze painted: (a) V171 and (b) V125 ................. 84

5.6. Refined ceramics and glass — 18001 vessels with duplicates at the nearby
Braun's site (181060): (a) V96, (b) B113, and (c) V95 .............................. 84

5.7. Refined ceramics — early broad-brush: (a) V102 and (b) V90 and middle period
(c) V103 painted saucers ...................................................................... 85

5.8. Refined ceramics — broad-brush and earlier painted teacups: (a) V123 and (b) V168 ..... 86

5.9. Refined ceramics — two-tone monochrome blue broad-brush cup and saucer set:
(a) V128 and (b) V112 ........................................................................... 86

5.10. Refined ceramics — middle period and sprig painted saucers: (a) V145, (b) V131,
and (c) V140 ......................................................................................... 87

5.11. Refined ceramics — sprig painted cups: (a) V154 and (b) V155 .................. 88

5.12. Refined ceramics — annular mocha bowls with green, blue, and unpigmented
roadletting at rim: (a) V187, (b) V185, (c) V198, and (d) V189 .................. 89

5.13. Refined ceramics — green shell-edged: (a) V199 and (b) V197 ............... 90

5.14. Refined ceramics — embossed blue shell-edged: (a) V199 and (b) V197 .... 91

5.15. Refined ceramics — blue shell-edged with irregular rim: (a) V206, (b) V204,
and (c) V217 ....................................................................................... 91

5.16. Refined ceramics — blue sponge/spatter: (a) V238 and (b) V237 ............... 92

5.17. Refined ceramics — creamware barreled pitcher (V240) .................................. 93

5.18. Refined ceramics — miscellaneous molded ceramics: (a) V265, (b) V271, (c) V268,
and (d) V230 ....................................................................................... 94

5.19. Refined ceramics — overglaze painted porcelain: (a) V280, (b) V284, (c) V283,
and (d) V285 ....................................................................................... 95

5.20. Refined ceramics — Partonware or unglazed porcelain pitcher (V287) ........ 96

5.21. Unrefined ceramics — lead-glazed and tin-glazed redware: (a) V330, (b) V336,
(c) V314, and (d) V392 ....................................................................... 97

5.22. Unrefined ceramics — chamberstick: (a) glazed buff earthware green lumps (V379)
and (b) brass and iron base to chamberstick (F38) ................................. 98

5.23. Unrefined ceramics — molded and Rockingham glazed red/yellow wares: (a) V367
and (b) V554 and V367 ....................................................................... 99

5.24. Unrefined ceramics — annular yellowware with slip bending, mocha, and
dendritic decorations: (a) V361, (b) V360, and (c) V363 .......................... 100

5.25. Unrefined ceramics — salt-glazed stoneware: (a) V301, (b) V309, (c) V293,
and (d) V303 ..................................................................................... 101

5.26. Unrefined ceramics — Upper Allan-type salt-glazed stoneware:
(a) V311 and (b) V308 ....................................................................... 102

5.27. Unrefined ceramics — higher portion of two-tone British Bristol-glazed stoneware bottle/
pot (V318) and Albany-slipaded, jigger-molded stoneware bowl rim (V315) .......................... 103

5.28. Glass — medium olive-green wine bottles: (a) B9, (b) B7, and (c) B17 .......................... 105

5.29. Glass — medium olive-green wine bottle bases: (a) push-up with emanous
and no pontil mark (H19) and (b) push-up with raw glass pontil scar (J9) ........ 105
5.31. Glass — medium olive-green wine bottle necks: (a) R5, (b) R14, (c) R17, and (d) R11..............103
5.32. Glass — amber apricot wine bottle necks: (a) R23, (b) R22, and (c) R25........................107
5.33. Glass — light green wine bottle base (F29) and rim (F28)..............................................107
5.34. Glass — English tumbled bottle (R1/B0)............................................................................108
5.35. Glass — medium olive-green bottle necks: (a) R20 and (b) R20.................................109
5.36. Glass — dark olive-green square or cone-shaped gin bottle: R51.................................110
5.37. Glass — miscellaneous alcohol bottles: (a) R32/R36 and (b) R34/R38......................111
5.38. Glass — miscellaneous bottles: (a) R45, (b) R77, (c) R37, and (d) R60....................112
5.39. Glass — John Bull / Extract of Sarsaparilla / Louisville KY (R55/B59)......................113
5.40. Glass — miscellaneous bottles: (a) R36/B42, (b) R59/B52, (c) R41, and (d) R37/B40....114
5.41. Glass — miscellaneous bottles: (a) R44/R67 and (b) R55.................................................114
5.42. Glass — vial bases with glass rod pontil scars: (a) R62, (b) R47, (c) R63, (d) R56, (e) R57, and (f) R58.................................................................115
5.43. Glass — round tumblers: (a) R65/B82 and (b) R65/B80.............................116
5.44. Glass — molded tumblers: (a) R72/B107, (b) R74/B104, (c) R88/B102, and (d) R89/B103..........................................................117
5.45. Glass — stemware: (a) R112, (b) R111, and (c) R74......................................................118
5.46. Glass — molded and pressed: (a) R79, (b) R77/R114, and (c) R76/B113........................118
5.47. Metal — knives and flatware: (a) folding penknife (F38), (b) knife (F22), (c) pewter spoon (F22), (d) pewter handle (F28).................................119
5.48. Metal — mops head (F39)..........................................................................................120
5.49. Metal — apple peeler (F38).......................................................................................120
5.50. Metal — architectural hardware: (a) pintle (F22), (b) pintle (F22), (c) strap hinge (F38), (d) door pull (F38), and (e) hinge (F53)..............................121
5.51. Lamps and lighting — glass candlesticks: (a—b) F38...............................................122
5.52. Lamps and lighting — oil lamp components: (a) whale oil glass chimney (F38), (b) kerosene glass chimney (F53), (c) wick holder (F29), (d) white metal finial (F38), and (e) wick holder (F29).........................................................123
5.53. Firearms — miscellaneous related artifacts: (a) gunflint (F22), (b) gunflint (F22), (c) shotgun shot shell (F38), (d) commercial percussion cap container (F38), (e) cartridge casing (F39), (f) lead shot (Drain 1), (g) lead shot with casting sprue (F30), (h) lead slug (F29), (i) ramrod thumb (F38), (j) ramrod ferrule (F53), and (k) probable barrel-keeper pin (F22)..................................................................................................................124
5.54. Clothing — buttons: (a) glass (F39), (b) glass (F38), (c) glass (F29), (d) glass (F8), (e) shell (F39), (f) shell with brass Shank (F53), (g) shell (F38), (h) shell (F53), (i) shell (F53), (j) horn (F21), (k) horn (F29), (l) iron rivet (F38), (m) fabric-covered white metal (F29), (n) iron four-hole (F38), (o) brass four-hole (F39), (p) decorated brass (F29), (q) plate brass (F22), and (r) plain tumbler (F83).....................................................125
5.55. Clothing and personal accessories — (a) thimble (F1), (b) straight pin (F53), (c) heel plate (F53), (d) ivory handle (F38), and (e) bone handle (F33)........................................................................128
5.56. Hair care and adornment — (a) plastic decorative comb (F38), (b) brass comb tooth (F38), (c) bone comb (F22), and (d) hard rubber hairpin (F53)......128
5.57. Jewelry — (a) enamelled pin or pendant (F20), (b) hat badge (F38), (c) child’s rings (F59/Drain 3), (d) bead (F22), and (e) agate (F23)......................................................129
5.58. Children’s toys — (a) doll (F29), (b) doll (F53), and (c) marble (F53).........................130
5.59. Tobacco smoking — (a) pewter pipe (F22), (b) clay stem (F22), (c) pewter bowl (F38), (d) stone ware stem (F22), (e) porcelain coffeehouse pipe (F38), and (f) stone ware presidential pipe........................131
5.60. Farm tools — scythe blades: (a) F17 and (b) F38................................................................132
5.61. Farm tools — scythe blades: (a) F17 and (b) F38................................................................132
5.62. Writing and drawing implements: (a) slate pencil (F22) and (b) slate table (F53) .............. 132
7.1. Feature associations: Everett Occupation (ca. 1811-1885) ............................................. 143
7.2. Feature associations: Ledergerber Occupation (1833-1861) ........................................ 144
7.3. Feature associations: Pierce Occupation (1861-1900) .................................................... 147
